

Work Samples and Rates

Because financial consulting is highly proprietary, I do not have any work samples I can deliver without a confidentiality agreement signed.

In addition, my rates are based as stated: Costs are project specific. For example, bookkeeping technical assistance is charged at a different rate than coaching and mentorship. Long-term projects are usually charged a flat fee. Normal cost-per-hour ranges from \$50-\$150, but fees are subject to change based on the work.
